

Information Systems

Nelson's Information Systems group works to further our internal capabilities. Some of those capabilities are customer facing.

We can provide:

Customizable Reporting

- Configured to your request.
- Multiple formats available.
- Can be automated.

System interfaces.

- We can work with your information professionals to move data to and from your system.

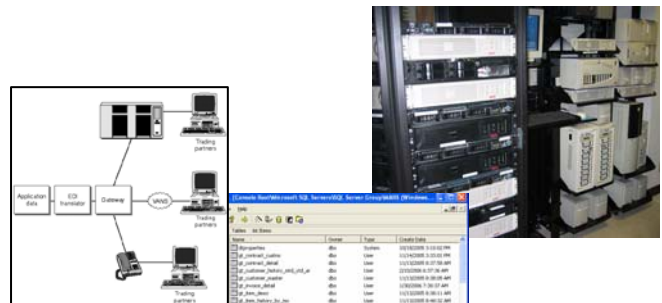

Price books.

- Suitable for import into your system.
- Can include your part number.
- Can be automated.

Web Service Center. (Nelson's online store)

- Price and availability.
- Order status.
- Much more.

EDI (Electronic Data Interchange)

- All transaction sets supported.
- Can be customized if required.
- Fast implementation.

Remote control of your system

- Used as customer assistance by Nelson's Advanced Technology Center

Dedicated to providing the best in services and capabilities to our customers
